are the foundation upon which hooked rugs are made. They come to you on a special grade of strong burlap. The design is stamped in colors. This makes it easy for even a beginner to make nice rugs, and with the large range of designs and sizes you can have any style of a rug your fancy demands.

To attempt to describe these rugs is useless. You really must make one yourself to appreciate their full attractiveness and to realize the keen enjoyment and satisfaction there is in this work.

Hooked rugs permit of charming possibilities, cheerful in color and unusually interesting in design—"a thing of beauty and a joy forever!"

## If You Have Never Made A Hooked Rug

We assure you that it is easy to learn, either with the Bluenose Hooker, Speedy Hooker, or common rug hook.

You simply get one of our burlap patterns stamped in colors, a Hooker, or a Hook, and some rags or Rug Yarn. Then when you send in your order, tell us that you have never made a hooked rug and we will send you the easy directions.

The colors given for each rug are merely suggestions as to how they might be done. Many women work out their own ideas and use color schemes to harmonize with their own furnishings. In some cases, where the pattern has a centre, the rug worker just fills it in plain, regardless of the design.

# BLUENOSE <sup>PURE WOOL</sup> RUG YARN

Using Bluenose Rug Yarn after the prevailing fashion of the present day gives you a much better chance for finer color graduation than is possible with materials from the rag bag.

What charm there is in Bluenose Rug Yarn! What fascinating colors to work with! Making a rug with this sturdy yarn in all its softly blending and harmonious shades is like painting a picture. The burlap pattern is your canvas, the yarn is your paint and the hooker is your brush.

But you don't have to be an artist to make a nice rug. The design is already stamped for you in colors on the burlap. All you have to do is to work over it with your yarn, hooking in the colors as they are on the burlap pattern. You can't go wrong.

And it is so easy with the "Bluenose"

or "Speedy" Hooker. Why the very first rug you make will be one that you will be proud of, a rug that will be easily worth twice the cost of the materials you put into it.

What thrills will be yours when you see the design take shape and grow under your own hand, until before you know it you have a rug of enduring beauty that will be a source of joy and satisfaction to yourself, and which you will be proud to show to your friends and say "I made it all myself!"

When made with Bluenose Rug Yarn, the beauty of your rugs is far more than surface deep. This sturdy yarn is all pure wool, dyed in the wool with the best and most color-fast dyes obtainable. It is spun to just the right size for making rugs of the most enduring quality. Rugs that just smile at years and years of tramping feet.

Many women are making very charming rugs for little money, by using Bluenose Rug Yarn for flowers and leaves or scrolls and their own rags for ground-work.

We strongly advise you (when buying Yarn for a Rug) that you be sure to get enough to complete your Rug. This applies especially to Yarn for ground-work as we cannot guarantee an exact match in colors when Yarn is bought at different times. The quantity of yarn needed varies according to the method of hooking.
